

## WATER MANAGEMENT

# KEEPING YOUR PROPERTY GREEN & GROWING

We'll keep your site properly watered with irrigation tactics that deliver water to the right places at the right times with the right amount. EMI's irrigation design allows us to specifically tailor your system—protecting your investment, decreasing frequent labor and adding value to your property. We can also evaluate your current system to report efficiency and effectiveness. Each staff member in our irrigation division has certified experience in the design, installation and maintenance of all types of irrigation systems.

### SERVICES AVAILABLE:

- Consultations to review your site and make recommendations
- Professional, custom designs to meet site requirements
- Efficiency & effectiveness with the latest technologies
- Commercial grade systems
- Minimize disruption to existing lawns and plants/beds
- Grading/drainage
- Smart Water Systems (*Rainbird wireless sensors and more*)
- Retrofits & upgrades
- Central control systems
- Spring irrigation start-ups / Winterization shut-downs
- In-season checkups & maintenance

### PRODUCT SATISFACTION:

- EMI warranties products and installations for one year. All our water management services are certified and follow commercial standards of construction for sustainability.
- EMI designs systems to minimize irrigation water run-off and to avoid the loss of water on paved surfaces, thus keeping water costs to a minimum.

### GREEN & SUSTAINABLE PROCESSES

We use water more intelligently so our practices decrease unnecessary usage:

- Working with weather satellites
- Xeriscaping practices (landscaping that reduces or eliminates the need for supplemental irrigation)
- Water-saving irrigation heads
- Drip irrigation when appropriate
- Installing rain sensors
- Utilizing rain gardens to capture water naturally
